CERTIFICATION

In its December 20, 2001 and September 25, 2009 Orders in APSC Docket 25980, this Commission determined that it could best meet its monitoring and certification obligations by requiring the "rural LEC Cost Companies" to file with the Commission a copy of their supporting annual interstate cost separation study, annual USF-HCLS filing and estimated USF-LSS filing for review and each of the "rural LEC Average Schedule Companies" to file with the Commission a copy of NECA's proposed annual USF-HCLS and USF-LSS amounts for review. Pursuant to the Order, Valley Telephone Co., LLC (the "Company") has previously provided the Commission with a copy of NECA's proposed annual 2010 USF-HCLS and 2010 USF-LSS amounts.

The Company further certifies that it will only use the federal high-cost support it receives during 2010-2011 for the continued provision, maintenance and upgrading of facilities and service for which such support is intended as described in 47 C.F.R. § 54.101. Those services, which are available to any customer in the Company's service area are: single-party voice grade access to the public switched network, unlimited local usage, dual-tone multi-frequency signaling or its functional equivalent, access to emergency services, including 9-1-1 service or enhanced 9-1-1 service, access to operator service, access to interexchange service, and access to directory assistance, and toll limitation for qualifying low-income customers.

The Company respectfully requests that the Commission notify the FCC prior to October 1 of this year that the Company is eligible to receive federal high-cost support in 2011. Any questions regarding this submission or the underlying documentation previously submitted to the Commission should be directed to Arlene Morgan at (706) 645-8116.

Respectfully Submitted,

TROY CABLEVISION, INC.
FIVE YEAR PLAN FOR USE OF FUNDS FROM USF
APRIL, 2010

Troy Cablevision, Inc. has been involved in building out and upgrading facilities in and around the Troy video franchise areas for the past 4 years. We have purchased a fully functional Class 5 MetaSwitch and are currently providing video, high speed broadband and competitive voice services in the following Alabama rate centers where we have video franchise operations:

Banks, Brantley, Brundidge, Goshen, Luverne, Elba and Troy. Recently added franchise areas in Daleville and Ozark and soon to be added Enterprise.

Through agreements with neighboring cable television companies, we are providing competitive voice service to customers in Opp, Dozier, Red Level, Andalusia and Gantt.

We have established voice hub sites in all of the rate centers we serve and have recently completed building out the Elba franchise with fiber to the home. We have built a redundant OC48 ring from Troy through Andalusia, Brantley, and Luverne and back to Troy; established fiber connections with Mon/Crc Telephone Cooperative, AT&T, CenturyTel, and Camellia Communications and are building a fiber connection to Butler Telephone Company (TDS).

Our plans for the future include:

1. Constructing an OC 48 fiber ring from Arton through Elba; New Brockton; Enterprise; Level Plains; Daleville and Ozark and back to Arton. The fiber section from Ozark to Arton is complete. This ring will interconnect with existing rings at various locations giving us fully redundant facilities between all of the Troy Cable properties.
2. Building out the Ozark, Daleville and Enterprise franchises with fiber to the home. This project is under construction in all three areas.
3. Building an OC48 fiber ring from Ozark to Dothan to Daleville and then back to Ozark on fiber built in item 1 of this plan.
4. Constructing an OC48 fiber ring from Troy to Montgomery where it will link up with other company facilities to Dothan and then back to Troy on existing fiber and fiber built in item 3 of this plan.

Over the next five years, we intend to use USF funds in conjunction with funds from other sources to complete the construction of all of these projects and for the provisioning, maintenance and upgrading of facilities and services for which the support is intended.
